

Four great reasons to choose our G Series furnace

1 Easy on You

The Smokeless Loading Handle ensures you stay clean while loading while the EZ Clean Handle makes cleaning your furnace a breeze. Our high efficiency furnaces use up to 50% less wood than conventional furnaces. That means less cutting, less loading and less cleaning.

G Series furnaces are safe and clean enough to be installed in a garage, shop or outbuilding

2 Built to Last

Heatmaster^{SS} combines the best materials with expert engineering to create the most rugged, longest lasting furnace available. Titanium Enhanced 409 Stainless Steel is the only steel that provides the right blend of longevity and cost effectiveness to meet Heatmaster^{SS} standards of excellence.

409 Stainless Steel

- Does not corrode from creosote or condensation
- Withstands higher continuous temperatures
- Transfers more heat
- Won't crack or warp in a high heat environment.

Our industry leading **Lifetime Limited Warranty** proves our commitment to quality

3 Energy Independence

Take control of your money and eliminate your heating bill with wood heat. Fossil fuel prices fluctuate but wood heat stays inexpensive or free. You'll even use less wood with our clean burning, efficient technology.

4 The HeatMaster^{SS} Advantage

Our furnaces are backed by an extensive network of professional dealers. Who are there to help you with expert installation, advice, after sales service and so much more.

 **HeatMaster**^{SS}

High Efficiency
Wood Burning Furnaces

HeatMaster^{SS}
Tough on Winter, Easy on You

Engineered to be tough on winter, year after year

These are just some of the features that demonstrate why Heatmaster^{SS} furnaces are the best choice for your heating needs:

A Smokeless loading handle

Eliminate smoke while loading, just by pulling the handle.

B EZ clean handle

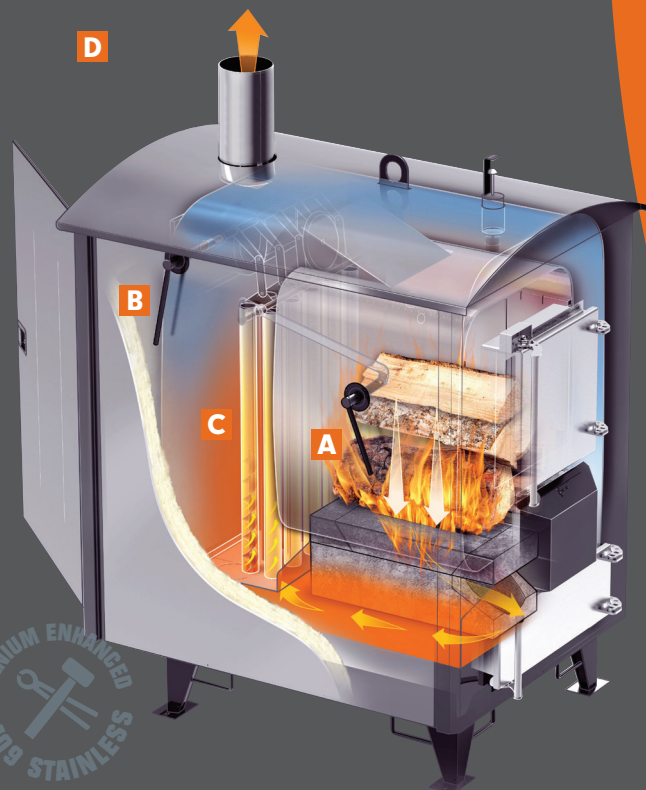

Clean the heat exchange tubes quickly and easily and reduce time for maintenance. No brushing tubes or scraping creosote!

C Low Maintenance, High Efficiency Heat Exchange Tubes

Our vertical heat exchange tubes keep ash and creosote from collecting and blocking the tube. Spirals in the tubes ensure the highest efficiency.

D Lifetime Limited Warranty

Our industry leading Lifetime Limited Warranty proves our commitment to quality.

G SERIES

	G100	G200	G400
Approx. Heating Space*	3,000 sq. ft.	5,000 sq. ft.	8,000 sq. ft.

Outlets	1 set of 1" feeds and returns	2 sets of 1" feeds and returns	2 sets of 1.5" feeds and returns
Chimney Size	6"	6"	8"
Dimensions*** (W" x L" x H")	38.5 x 57 x 77	53 x 70 x 84	53.5 x 82 x 89

*Well-insulated house. **BTU's are approximate and will vary depending on fuel quality. ***Height of the furnace is to the top of the lift hook.

More great features created with you in mind

- Industry Leading Efficiency & Emissions**
Exceeds government regulations by over 75%.
- High Efficiency Combustion Chamber Design**
The horseshoe refractory design creates the cleanest, hottest burn (up to 2000° F).
- Easy Plumbing & Service Access**
Insulated, hinged rear door makes access to the rear of the furnace easy.
- Sight Glass**
Enabling users to check the burn process without disrupting the fire by opening the doors.
- Safety Door Latch**
Latch catches the door so it doesn't swing open and expose user to excessive heat.
- Modern Finish**
The smooth finished appeal is easy to wipe down and keep clean.
- Draft Suction Fan**
Keeps airways clean and helps the smoke bypass to be more effective.
- Rounded Firebox**
Increases strength with fewer welds.
- Easy to read water level gauge**
- Heavy duty multi-layer insulation**
- Easy to read water level gauge**
